Mr. C. M. Carn, of Reddick, was a pleasant visitor to this office Friday. It will be remembered that Mr. Carn was successful last year in canning tomatoes, and this year he is preparing to put up more than forty thousand cans, and is very much encouraged with the enterprise. He expects to increase its capacity from year to year. In addition to putting up the tomatoes in cans he will this year manufacture twelve or more barrels of vinegar from the refuse. He had a sample of vinegar he manufactured last year, which was in all respects a very fine article.

The popular view of the relation of the blood to human character and conduct is marked in many a familiar expression. We speak of there being "bad blood" between people at enmity, of "blue blood" as indicating ancestry, of "black blood," as describing a treacherous nature, and in many another phrase mark our belief that in the mental, moral and physical man, "the blood is the life." The one basis of a healthy, happy and useful life is pure blood. With the blood pure, disease has no permanent lodging place in the system. For this reason the use of Dr. Pierce's Golden Medical Discovery cures the body of disease which have their origin in impurity of the blood. It absolutely purifies the blood, carrying off the waste and poisonous matter, increasing the action of the blood making glands, and building up the body by supplying the blood in quality such as is essential to a condition of health. It cures ninety-eight people out of every hundred who give it a fair trial.

Mr. Hannah is a hotel man, knows nothing else and will achieve success by deserving it, and he will deserve it by setting a first class table and looking after every detail of the business.

Constipated Bowels.

To have good health, the body should be kept in a laxative condition, and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. Read It in His Newspaper.

George Schaub, a well known German citizen of the Dayton Volkezeitung. He knows that this paper aims to advertise only the best in its columns, and when he saw Chamberlain's Pains Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered most terrible pains in her back and could get no relief. He says:

"After using Pain Balm for a few days my wife said to me, I feel as though born anew," and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery.

LARGEST SALE

Harvesting Machinery Ever Made in This Territory.

Saturday afternoon a most unusual sight met the gaze of every passer on Broad street, in the neighborhood of the Griffin Hardware Co.

There were 46 farmers' wagons in front of this place at one time. No one could imagine the cause until Mr. J. H. Manners headed a corps of men and loaded these wagons with 75 Deering mowers and rakes.

This speaks much for the "Deering Harvesting Machinery."

The Griffin Hardware Co. are doing an enormous business in this line.

During Saturday they also delivered 30 Planet Jr. Cultivators. Mr. Charles Wainwright, of Philadelphia, who represents the manufacturers, is here and will remain several days delivering the large number of orders taken through the Griffin Hardware Co.

Saturday marked the largest one day delivery of harvesting machinery ever made by any hardware concern in this section.

Photographs were taken of the store and wagons as they stood loaded.

Mr. Manners is very much gratified with his sales this year and remarked while loading the wagons: "The Deering again king of the field."

Rome is proud of her many progressive firms, and the Record has stated before that Rome should be the central distributing point for northwest Georgia.

These are the same make of mowers, reapers, binders and rakes that Hubbard & McDuff, of Ocala, are agents for and have been selling so many of and pleasing every purchaser.

All Deering machines are guaranteed to give satisfaction, being lighter and less number of pieces to get out of repair, and are superior to all other makes.

Call and inspect these mowers. It will soon be hay-making time. Hubbard & McDuff, Agents, Ocala, Fla.

The Ocala Gun Club.

The Ocala Gun Club will come by invitation to this city on next Saturday to try issue with the Gainesville club. Much fine shooting is expected as there will be artists from abroad here also. —Gainesville News.

Tax on Babies.

Extreme hot weather is a great tax on the digestive power of babies; when puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of their food, that they soon become strong, healthy and active. 25c at Anti-Monopoly Drug Store.
